F16
IP65 Rated Outdoor Fingerprint Access Control Terminal

F16 is a fingerprint access control terminal with an integrated proximity reader (EM). It is IP65 rated which enables it to be resistant from water, dust and other outside damages. It can be installed easily on your network having both Ethernet and RS485 serial ports. Weigand-OUT port allows connection of reader to ZK or any 3rd party access control panels panel. Using Weigand-In port, you can connect to any card readers for authentication at both entrance and exit.

The PULL firmware and ZKAccess3.5 are the standard configurations which make F16 more versatile and powerful. Users can be registered on the device by the Management Card or through connecting with ZKAccess3.5 software by TCP/IP.

- **Rugged Structure for Outdoor Installation and Extra Durability**
  - IP65 rated waterproof and dustproof structure

- **Slim and Elegant Design**
  - One of the world's smallest fingerprint terminals
  - Sleek and slim design for narrow spaces

- **Fast and Accurate Fingerprint Algorithm**
  - 1 touch a-second user recognition
  - Store 3,000 fingerprint templates, 30,000 cards and 100,000 transactions

- **Easy Installation and Connectivity**
  - Wiegand input & output
  - Network interface by TCP/IP or RS485

- **Full Access Control Features**
  - Anti-passback
  - Access control interface for 3rd party electric lock, door sensor, exit button, alarm

- **For Software Developers**
  - Free PULL SDK and development tools are available for developers/partners
